

TCM Forklift Parts

TCM Forklift Parts - In the international business of material handling, forklifts play a major part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in America, forklifts gained recognition following WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machinery spread internationally.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Over the years, TCM lift trucks have become an international leader in lift truck manufacturing and have built a solid reputation with the trade. TCM started building lift truck manufacturing locations outside of Japan in the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With over fifty years of accumulated expertise and technology, TCM has been proudly making numerous models of industrial forklifts, making their models known all around the world. With a strong and energetic workers, TCM has been able to constantly work towards becoming a future leading material handling business.
