

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those operating in North America. Clark has five main lines of lift trucks across the globe, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific items fabricated for 20 distinctive models of forklifts and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very amazing global support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has selected the very economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This system was developed to acknowledge the most efficient method of production facility management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering program combines innovative product development and offers superior consumer support and service within the industry.
